

STRUCSURE
HOME WARRANTY

WHAT IS A HOME WARRANTY?

Today's homebuyers are making the investment of a lifetime and they want protection in the event their home develops a construction or structural defect. Most homes are built with pride and quality workmanship, but sometimes construction defects happen despite a builder's best intentions and efforts. Savvy builders provide their buyers with a warranty from StrucSure Home Warranty to not only make their buyers feel confident about their purchase, but to give them peace-of-mind and protect them in the event the unforeseen occurs.

WHY HAVE WARRANTY COVERAGE?

A warranty from StrucSure Home Warranty provides homebuyers with peace-of-mind and financial protection in the event a construction or structural defect occurs in their home. Without a home warranty, a homeowner can find themselves with a hefty repair bill, or even worse, a legal nightmare that can result in wasted time, energy, and money. The hope is that you will never need warranty coverage, but if a problem emerges, you'll be glad you're covered!
